New Trust Sports Changing Facilities for students on site at Denbigh

We are delighted that our new sports changing facilities are now on site and ready to be used at Denbigh. The Trust has worked in partnership with the Local Authority to provide these new facilities which will be used by Watling Academy students while the sports fields at the new Barossa Way site are being readied.

Andy Squires, CEO of the Trust said: 'These facilities are a welcome addition to the Trust's resources as they allow Watling students to use the sports fields at Denbigh while their fantastic new facilities at Barossa Way are being finished. The project, completed in partnership with the Local Authority, is an example of the benefits co-operation across the Trust's schools can bring to all involved.'
